Dear colleagues and partners,

It is a great honor for Timișoara and for Romania to host the WFUMB Congress 2022.

The 18th World Federation for Medicine and Biology Congress in conjunction with the 2022 SRUMB Annual Conference and the EUROSON 2022, will be the most important event of the year for all of us using ultrasound as a medical tool.

It is also an opportunity to visit our beautiful town, “The Little Vienna” or “The City of Flowers”, as Timișoara is called, and to discover the Romanian hospitality.

WFUMB 2022 will maintain the tradition of a balanced program, including a range of postgraduate courses focused on different fields of ultrasound and will also bring the newest information in diagnostic and interventional ultrasonography, covering the usual broad range of topics.

The scientific committees assure you that WFUMB 2022 will be an excellent opportunity for continuous medical education for everyone, from the general practitioners to the scientists and researchers.

The local organizing committee and the Romanian Society of Ultrasound (SRUMB) are delighted to be your hosts and invite you to join this event, to explore the beauty of Timișoara and Romania, and to enjoy the special social events that will be prepared for this meeting.

For four days, between 25-28 May 2022 Timișoara will be The World Capital of Ultrasound.

We are looking forward to welcome you in Timișoara in 2022.

RS85 Prestige

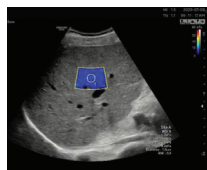

Extindeți gama de observație a fluxului sanguin pentru a include viteze scăzute cu **MV-Flow™** astfel putând vizualiza microvascularizația în vederea creșterii încrederii în diagnostic.

Noua și inovativa tehnică de vizualizare tridimensională a fluxului sanguin, **LumiFlow™**, susține înțelegerea structurii vaselor de sânge precum și a direcționalității fluxului.

Obțineți rezultate cu un grad ridicat de încredere asupra cuantificării și evaluării gradului de fibroză hepatică cu ajutorul tehnologiei avansate **S-ShearWave Imaging™**.

Grație noii tehnologii **CEUS+™** (Contrast Enhanced Ultrasound) puteți detecta și caracteriza facil leziuni cu ajutorul unor instrumente avansate precum graficul timp-intensitate.

THE REAL REVOLUTION

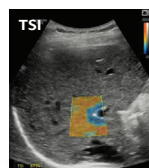

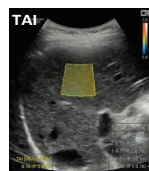

RS85 Prestige a revoluționat ecografia cu tehnologii noi și inovative cu aplicabilitate pentru orice tip de investigație.

Grație inteligenței artificiale și a celor mai complexe instrumente de analiză și diagnosticare, echipamentul definește noile standarde în ecografie.

Pachetele specializate de diagnosticare dezvoltate pe elemente hardware de ultimă generație transformă cele mai dificile cazuri clinice în examinări de rutină.

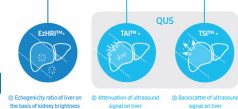

Experimentați noile metode non-invasive de cuantificare pentru ficatul gras, **TAI** (Tissue Attenuation Imaging) și **TSI** (Tissue Scatter distribution Imaging).

EzHRI™

Extindeți paleta metodelor de diagnosticare a ficatului gras cu ajutorul funcției **EzHRI™** ce efectuează automat calculul indexului hepato-renal.

16:35-17:00	Ultrasound criteria in the diagnosis of PCO and PCOS Sudhir Vinayak (Kenya)

Room 7 - Roma 2

09:00-11:00	Elastography from A to Z Course Directors: Giovanna Ferraioli, Ioan Sporea C7.1 Chairmen: Giovanna Ferraioli, Ioan Sporea
09:00-09:20	Elastography: Physical background Giovanna Ferraioli (Italy)
09:20-09:40	Transient Elastography – technique and application in chronic viral hepatitis Monica Lupșor (Romania)
09:40-10:00	ARFI elastography techniques - pointSWE and 2D SWE techniques and application in chronic viral hepatitis Simona Bota (Austria)

10:00-10:20	Ultrasound based Elastography for Nonalcoholic Fatty Liver Disease Ioan Sporea (Romania)
10:20-10:40	US based elastographic assessment of fibrosis and steatosis in alcoholic liver disease Alina Popescu (Romania)
10:40-11:00	Elastography in autoimmune and cholestatic liver diseases Matteo Rosselli (Italy)
11:00-11:30	Coffee Break
11:30-13:00	Elastography from A to Z C7.2 Chairmen: Giovanna Ferraioli, Ivica Grgurevic
11:30-11:50	Ultrasound elastography for portal hypertension Ivica Grgurevic (Croatia)
11:50-12:10	Elastography for Hepatic Fibrosis: USE vs. MRE Byung Ihn Choi (South Korea)
12:10-12:30	An update on US-based elastography in pediatrics Corina Pienar (Romania)
12:30-12:50	Liver shear wave elastography: from the guidelines to the daily practice Giovanna Ferraioli (Italy)
13:00-15:00	Lunch
15:00-17:00	Elastography from A to Z C7.3 Chairmen: Ioan Sporea, Stephanie Wilson
15:00-15:20	Breast elastography Richard Barr (USA)
15:20-15:40	Pancreas elastography Adrian Săftoiu (Romania)
15:40-16:00	Ultrasound elastography of the prostate Sorin Ducea (Romania)

16:00-16:20 US-elastography of superficial organs: what we have learned by experience
Vito Cantisani (Italy)

16:20-16:40 Renal elastography- where are we now?
Flaviu Bob (Romania)

16:40-17:00 Sonography in IBD: the contributions of CEUS and Elastography
Stephanie Wilson (Canada)

Room 8 - Oslo

09:00-11:00 Vascular US
Course directors: Sorin Dudea, Dan Stănescu, Boris Brkljačić
C8.1
Chairmen: Sorin Dudea, Dan Stănescu

09:00-09:20 Vascular ultrasound in the era of CT and MRI
Boris Brkljačić (Croatia)

09:20-09:40 Basic vascular ultrasound - DVT
Jo McCann (New Zealand)

09:40-10:00 Doppler of peripheral arteries
Diana Gaitini (Israel)

10:00-10:20 Ultrasound evaluation of deep vein thrombosis
Cem Yucel (Turkey)

10:20-10:40 Is Doppler ultrasound reliable for the screening of hypertension in young patients
Mirela Gliga (Romania)

10:40-11:00 Using 3D Color Flow for True Umbilical Blood Flow
Brian Fowlkes (USA)

11:00-11:30 Coffee Break

11:30-13:00 Vascular US
C8.2
Chairmen: Fabrizio Calliada, Sorin Dudea

12:24-12:42	CEUS in the ICU – promising applications for daily practice Milan Kocián (Czech Republic)

12:42-13:00	CEUS in acute and critical patients (with special focus on vascular complications) Radu Badea (Romania)
13:00-15:00	Lunch
13:30-14:00	Siemens Breaking News: Novel Technologies on Liver Fat Quantification and Stiffness assessment Alina Popescu (Romania)
15:00-17:00	S20. US for GP Chairmen: Matteo Rosselli, Mateusz Kosiak
15:00-15:20	The management of gallbladder polyps Mirela Dănilă (Romania)
15:20-15:40	Ultrasound diagnosis of chronic liver disease and mimics of cirrhosis Matteo Rosselli (Italy)
15:40-16:00	Incidental findings in abdominal US Christoph F. Dietrich (Germany)
16:00-16:20	Early detection of cancers in family medicine practice - what can be achieved with sonography? Mateusz Kosiak (Poland)
16:20-16:40	Urinary US: the role for the GP Adnan Kabaalioğlu (Turkey)
16:40-17:00	The Point of Care Ultrasonography at the Family Physicians' daily practice - a prospective observational cross-sectional study at the patients presenting with medical emergencies in primary healthcare Mihai Iacob (Romania)
18:30-20:30	Opening Ceremony - The Opera House
20:30-22:00	Welcome Cocktail in the Exhibition - Hotel Timișoara

Room 6 - Roma 1

09:00-11:00	S6. Liver elastography Chairmen: Richard Barr, Sebastian Müller
09:00-09:20	Pitfalls in liver elastography Roxana Şirli (Romania)
09:20-09:40	Ultrasound based elastography for alcohol induced liver disease Sebastian Müller (Germany)
09:40-10:00	Liver and spleen elastography in the monitoring of portal hypertension Massimo Pinzani (UK)
10:00-10:20	Liver elastography — update on SRU guidelines Richard Barr (USA)
10:20-10:30	OP 5. Liver stiffness as assessed by two-dimensional shear wave elastography is associated with adverse clinical outcomes of patients with compensated chronic liver disease Kristian Podrug, Mrko Lucijanic, Ida Tjesic Drinkovic, Tonci Bozin, Tomislav Bokun, Ivica Grgurevic (Croatia)
10:30-10:40	OP 6. Performance of p-SWE and 2D-SWE with three probes from a new ultrasound machine for the prediction of advanced liver fibrosis using transient elastography as a reference method Ioan Sporea, Raluca Lupusoru, Roxana Şirli, Felix Bende, Alexandru Popa, Radu Cotrau, Alina Popescu (Romania)
10:40-10:50	OP 7. Factors affecting assessment of liver steatosis with quantitative ultrasound Aladár Rónaszéki, Bettina K. Budai, Robert Stollmayer, Steiner Tidhar, Pál Maurovich-Horvat, Pál N. Kaposi (Hungary)
10:50-11:00	OP 8. Clinical evaluation of viscoelasticity measurements by shear wave elastography in healthy and chronic liver disease subjects Roxana Şirli, Alexandru Popa, Alina Popescu, Felix Bende, Renata Fofiu, Victor Baldea, Radu Cotrau, Camelia Foncea, Ariana Pascu, Ioan Sporea (Romania)

09:00-11:00 S7. Echocardiography for non-cardiologist
Chairmen: Adina Ionac, Cristian Mornoș

09:00-09:20 Focus cardiac ultrasound in the emergency room
Simina Crișan, (Romania)

09:20-09:40 Echocardiography for the oncological patient
Cristian Mornoș (Romania)

09:40-10:00 Echocardiography for patients with Chronic Kidney Disease
Adina Ionac (Romania)

10:00-10:20 Echocardiography for the screening of cardiovascular abnormalities in athletes
Raluca Sosdean (Romania)

10:20-10:40 Lung ultrasound imaging – a standard for pulmonary evaluation
Mihai Lazăr (Romania)

10:40-10:50 OP 9. Echocardiographic findings in a chronic kidney disease cohort
Maria Daniela Teodora, Daniel Cosmin Caragea, Kamal Constantin Kamal (Romania)

10:50-11:00 OP 10. Left atrial dysfunction by speckle tracking echocardiography in young subjects with hiv infection
Ioana Mirea, Ionut Donoiu, Mirela Mănescu, Florentina Dumitrescu, Octavian Istratoaie, Constantin Militaru (Romania)

11:00-11:30 Coffee Break

11:30-13:00 S15. Abdominal pediatric ultrasound
Chairmen: Hassen A. Gharbi, György Harmat

- 09:00-11:00** S8. Original research presentations
Chairmen: Cristina Chammas, Christian Jenssen
-
- 09:00-09:10** OP 34. Optical and ultrasound imaging of shear wave generated by laser induced cavitation bubbles
Saber Izak Ghasemian, Fabian Reuter, Claus-Dieter Ohl (Germany)
-
- 09:10-09:20** OP 35. Detection of a spoke-wheel pattern of focal nodular hyperplasia with novel microvascular flow imaging
Aladár Rónaszéki, Bettina K. Budai, Robert Stollmayer, Gabriella Györi, Pál Maurovich-Horvat, Pál N. Kaposi (Hungary)
-
- 09:20-09:30** OP 36. 3D ultrasound versus computed tomography as ex-vivo imaging of surgical specimens – a pilot study on animal specimen
Fatemeh Makouei, Caroline Ewertsen, Tina KlitmÅ, Iler Agander, Mikkel Vestergaard Olesen, Bente Pakkenberg, Tobias Todsén (Denmark)
-
- 09:30-09:40** OP 37. Diagnostic accuracy of Controlled Attenuation Parameter for steatosis assessment in chronic liver diseases using the M and the XL probes
Teodora Șerban, Alexandra-Iulia Silion, Monica Platon-Lupușor (Romania)
-
- 09:40-09:50** OP 38. Fatty liver quantification using Ultrasound Derived Fat Fraction (UDFF) as compared to Controlled Attenuation Parameter (CAP) in a mixed cohort of patients
Ioan Sporea, Raluca Lupușoru, Roxana Șirli, Felix Bende, Radu Cotrau, Camelia Foncea, Alina Popescu (Romania)
-
- 09:50-10:00** OP 39. Multiparametric ultrasound evaluation of liver fibrosis, steatosis and viscosity in patients with chronic liver disease
Iulia Minciuna, Madalina Taru, Oana Nicoara Farcau, Monica Platon-Lupușor, Horia Ștefănescu, Bogdan Procopet (Romania)
-
- 10:00-10:10** OP 40. Applicability of viscosity plane-wave ultrasound (ViPlus) in the evaluation of thyroid gland in healthy volunteers
Diana-Raluca Petea-Balea, Carolina Solomon, Sorin Dudea, Delia Muntean (Romania)
-
- 10:10-10:20** OP 41. The strain ratio and 4D vascularity as additional parameters to the TI-RADS
Andreea Borlea, Laura Cotoi, Ioan Sporea, Dana Stoian (Romania)

10:20-10:30	OP 42. The relationship of renal stiffness measured using 2D shear wave elastography and renal function in kidney transplant recipients Felix-Mihai Maralescu, Flaviu Bob, Alina Popescu, Roxana Şirli, Adalbert Schiller, Ligia Petrica (Romania)
10:30-10:40	OP 43. Pitfalls in renal artery stenosis ultrasound examination Gliga Mirela, Adriana Gomotirceanu, Ioan Tilea, Mihai Gliga, Paula Chirila, Cristian Chirila (Romania)
10:40-10:50	OP 44. Ultrasound-Based Radiomics Nomogram for Differentiating Benign and Malignant Solid Kidney Tumours Wu Gege, Xin-Wu Cui, Christoph F. Dietrich (China)
11:00-11:30	Coffee Break
11:30-13:00	S16. Interactive clinical cases Chairmen: Petru Adrian Mircea, Ioan Tofolean
11:30-11:50	Interesting ultrasound cases Ioan Tiberiu Tofolean (Romania)
11:50-12:10	Interesting ultrasound cases Romeo Chira (Romania)
12:10-12:30	Interesting OBG ultrasound cases Sergiu Puiu (Moldova)
12:30-12:50	Interesting ultrasound cases Felix Bende, Roxana Şirli, Mirela Dănilă, Ioan Sporea (Romania)
13:00-15:00	Lunch
15:00-17:00	S23. Oral case reports Chairmen: Viorela Enăchescu, Mirela Gliga
15:00-15:10	OCR1. Difficulties in the ultrasonographic diagnosis of a gallbladder tumor Radu-Cristian Cimpeanu, Larisa Daniela Sandulescu, Cosmin Vasile Obleaga, Corina Gruia, Ion Rogoveanu, Cristin-Constantin Vere (Romania)

15:10-15:20	OCR2. An ultrasound “surprise” mediastinal mass – thymic Hodgkin’s lymphoma Mihaela Tanco, Ioan Tiberiu Tofolean (Romania)
15:20-15:30	OCR3. Ultrasound assessment of hepatic post-traumatic injuries in patients with cardiac disease Maria-Cristina Bezna, Marinela Bezna, Carmen-Daniela Neagoe, Sergiu-Marian Cazacu, Roxana-Andreea Baran, Lorena Ungureanu (Romania)
15:30-15:40	OCR4. An unusual CEUS finding in a patient with carcinoid syndrome Elena Codruta Gheorghe, Maria Stoica, Anca Dimitriu, Daniela Elena Burtea, Nona Bejinariu, Adrian Săftoiu (Romania)
15:40-15:50	OCR5. The role of ultrasonography and added value of contrast-enhanced ultrasonography in emergency diagnosis of ruptured hydatid cysts - a case report Elena Simona Ioanițescu, Otilia Motoi, Emil Matei, Gabriela Postolea, Cătălin Rusu, Elena Laura Iliescu (Romania)
15:50-16:00	OCR6. Contrast-enhanced ultrasonography in diagnosis and follow up of pancreatic pseudoaneurysm – case report Sevastita Iordache, Laurentiu Gulie, Andreea Crasan, Cristian Constantin, Larisa Sandulescu, Sergiu Cazacu, Adrian Săftoiu (Romania)
16:00-16:10	OCR7. A rare and unexpected case of intestinal obstruction - gallstone ileus Mihaela Tanco, Ioan Tiberiu Tofolean (Romania)
16:10-16:20	OCR8. Diagnostic accuracy of contrast enhanced ultrasound in malignant thyroid nodule – case report Andreea Toma, Mihaela Vlad, Ioana Golu, Marioara Cornianu, Carmen Dorogi, Tudor Moga (Romania)

09:00 -11:00	S24. GIUS 1 Chairmen: Christian Pallson Nolsøe, Odd Helge Gilja
09:00-09:20	The world's first guidelines on gastrointestinal ultrasound Odd Helge Gilja (Norway)
09:20-09:40	Diverticular disease and diverticulitis Giovanni Maconi (Italy)
09:40-10:00	Treatment response in IBD Kim Nylund (Norway)
10:00-10:20	TRUS applications in anal and rectal diseases Christian Pallson Nolsøe (Denmark)
10:20-10:40	Transrectal US in staging of early rectal cancer Torben Lorentzen (Denmark)
10:40-10:50	OP 12. The role of Dynamic Contrast Harmonic Imaging Endoscopic Ultrasound (CHI-EUS) and CD105 and CD31 immunostaining in tumor angiogenesis assessment on patients with gastric cancer – a feasibility study Victor Mihai Sacerdotianu, Bogdan Silviu Ungureanu, Sevastita Iordache, Ion Rogoveanu, Adrian Săftoiu, Tudorel Ciurea (Romania)
11:00-11:30	Coffee Break
11:30-13:00	S31. GIUS 2 Chairmen: Giovanni Maconi, Kim Nylund
11:30-11:50	Transabdominal ultrasound of the ileo-coecal valve Odd Helge Gilja (Norway)
11:50-12:05	Score development in IBD Kim Nylund (Norway)

12:05-12:25	Functional GI disorders Giovanni Maconi (Italy)
12:25-12:40	Transrectal US guided treatment of abscesses in lower abdomen Torben Lorentzen (Denmark)
12:40-12:50	OP17. Evaluation of fibrotic and inflammatory stricture in the terminal ileum with Shear Wave Elastography (SWE) in Chron's Disease Mustafa Devran Aybar (Turkey)
12:50-13:00	OP18. GIUS + CEUS vs. entero-RM in assessing the severity of ileal Crohn's Disease: a feasibility study Razvan - Cristian Statie, Sevastița Iordache, Lucian-Mihai Florescu, Ioana-Andreea Gheonea, Tudorel Ciurea (Romania)
13:00-15:00	Lunch
13:30 -14:30	General Electric Lunch Symposium Multi-parametric Ultrasound in the management of patients with Liver disease: from CLD to FLLs, from diagnostics to interventional procedures Moderator: Alina Popescu (Timisoara, Romania) Topic 1: Chronic Liver Disease with focus on NAFLD: a "point of care" diagnosis - Ioan Sporea (Timisoara, Romania) Topic 2: US/CEUS in the management of Focal Liver Lesions - Ákos Járay (Pécs, Hungary) Topic 3: Multi-parametric ultrasound along the Liver care pathway, from diagnostic to interventional procedures - Carla Serra (Bologna, Italy)
15:00-17:00	SRUMB - 25 years Chairmen: Ioan Sporea, Alina Popescu
15:00-15:35	SRUMB Invited Lecture "Gheorghe Badea" Lecture - The journey of vascular ultrasound Sorin Dudea (Romania)
15:35-16:10	SRUMB Invited Lecture "Gheorghe Jovin" Lecture - Point of care Ultrasound in general practice Viorela Enăchescu (Romania)
16:10-16:40	25 years of SRUMB Petru Adrian Mircea (Romania)

17:00-18:00 SRUMB General Assembly

Chairs:

Chairmen: Matthias Wüstner, Zeno Spârchez

09:00-09:10 The effect of incidental findings in cross-sectional imaging on an ultrasound department
Siobhan Alsop (UK)

09:10-09:20 Ultrasound-Guided Attenuation Parameter Correlates Significantly with Nas Grade and Histological Steatosis in Patients with Non-Alcoholic Steatohepatitis
Paolo Magnano San Lio (Italy)

09:20-09:30 The use of contrast-enhanced ultrasound (CEUS) and machine learning analysis in diagnosing delayed graft function in renal transplantation-a pilot study
Tudor Moisoiu (Romania)

09:30-09:40 Shear wave elastography of complex rectal polyps and early rectal cancer
Martina Kastrup Loft (Denmark)

09:40-09:50 Quantitative ultrasound imaging of uterine peristalsis for prediction of successful fertilization
Yizhou Huang (The Netherlands)

09:50-10:00 Deep vein thrombosis in COVID-19 convalescents – preliminary study
Maryla Kuczyńska (Poland)

10:00-11:00 Discussions

11:00-11:30 Coffee Break

11:30-13:00	S32. WFUMB Young Investigator Session Chairmen: Leandro Fernandez, Christian Pallson Nolsøe
11:30-11:42	Ultrasound Guided Microwave Ablation and Transarterial Chemoembolization for Unresectable Solitary-Nodule Hepatocellular Carcinoma – a Head-to-Head Survival Comparison Rareş Crăciun (EFSUMB)
11:42-11:54	Lung ultrasound of the dependent lung detects real-time changes in total lung volume in a preterm lamb model Arun Sett (ASUM)
11:54-12:06	Discordance between Breast Imaging and Histopathology Findings after Ultrasound Guided Core Needle Biopsy at Akuhn Margaret Mawania (MASU)
12:06-12:18	Quantitative ultrasound evaluation of hepatic steatosis and fibrosis in children based on backscattered statistics Chiao-San Hsieh (AFSUMB)
12:18 - 12:30	2D Shear Wave Elastography Increases the Diagnostic Accuracy of ACR-TIRADS and ATA Guideline in Thyroid Nodule Selection: Cyto and Histological Correlation Pedro Henrique de Marqui Moraes (FLAUS)
12:30-13:00	Discussions
13:30-14:30	Lunch
15:00-17:00	Mindray Lunch Symposium The Art of innovation Using advanced technologies for difficult diagnosis - Dan Stănescu (Romania) Superficial Imaging - where we are now - Vito Cantisani (Italy) Advanced applications in liver and gastrointestinal imaging - Christoph F. Dietrich (Germany)
15:00-15:20	S38. CEUS - nonliver applications Chairmen: Vito Cantisani, Brian Fowlkes
15:20-15:40	CEUS vs CT/MRI of pancreatic solid neoplasms Mirko D'Onofrio (Italy)

15:40-16:00	CEUS of Splenic lesions Paul Sidhu (UK)
16:00-16:20	CEUS in IBD Giovanni Maconi (Italy)
16:20-16:40	Intracavitary application of ultrasound contrast agents – extrabiliary indications André Ignee (Germany)
16:40-17:00	Bosniak cyst: which role for CEUS Vito Cantisani (Italy)
19:30-23:30	CEUS of the Urinary Tract: Future Diagnostic Potential Brian Fowlkes (USA)
19:30-23:30	Get together party Fratelli By The River 1, Corneliu Coposu Blvd

Room 3 - Alfa 3

09:00-11:00	S26. CEUS Chairmen: Cristina Chammas, Ákos Járay
09:00-09:20	Contrast agents for ultrasound: principles Peter Burns (Canada)
09:20-09:40	Atypical focal liver lesions on contrast-enhanced ultrasound (how to deal with lesions that hasn't read the textbook) Ákos Járay, Bálint Botz (Hungary)
09:40-10:00	CEUS dose reduction and possible advantages Fabrizio Calliada (Italy)
10:00-10:20	CEUS liver guidelines: update 2020 Cristina Chammas (Brazil)
10:20-10:40	AFSUMB Guidelines of CEUS Using Sonazoid. Won Jae Lee (South Korea)

10:40-10:50	OP 13. Liver lesion segmentation in contrast-enhanced ultrasound using deep learning algorithms Madalin Mamuleanu, Mircea Serbanescu, Cristiana Marinela Urhut, Daniela Larisa Sandulescu, Mihaela Ionescu, Costin Teodor Streba (Romania)
10:50-11:00	OP 14. Diagnostic accuracy of contrast enhanced ultrasound (CEUS) in hepatocellular carcinoma by using LI- RADS V2017 and ancillary features Adriana Ciocalteu, Ion Rogoveanu, Sevastita Iordache, Sergiu Cazacu, Cristiana Urhut, Larisa Sandulescu (Romania)
11:00-11:30	Coffee Break
11:30-13:00	S33. Joint Safety Session: WFUMB-ECMUS Chairmen: Christian Kollmann, Brian Fowlkes
11:30-11:48	The Safety of Medical Ultrasound - an overview by the ECMUS Safety Committee Carmel Moran (UK)
11:48-12:06	Development of International Standards for Ultrasonic shear wave elastography equipment Klaus V Jenderka (Germany)
12:06-12:24	Current Issues in Medical Ultrasound Safety Brian Fowlkes (USA)
12:24-12:42	Bioeffects of rabbit tissue exposed to acoustic radiation force impulses Iwaki Akiyama (Japan)
12:42-13:00	Interactive Safety Quiz for Users Christian Kollmann (Austria)
13:00-15:00	Lunch
15:00-17:00	S39. New Trends in US (AI, Innovations) Chairmen: Christoph F. Dietrich, Martin Krix
15:00-15:20	“Democratisation” of Ultrasound by Handheld Ultrasound Systems – opportunities and challenges Christian Jensen (Germany)

15:20-15:40	How to conduct good clinical ultrasound trials Martin Krix (Germany)
15:40-16:00	Dynamic contrast enhanced ultrasound, what should we know? Christoph F. Dietrich (Germany)
16:00-16:20	AI captures ultrasound - actual developments Christian Kollmann (Austria)
16:20-16:40	Artificial Intelligence Challenges in Liver Ultrasound Cătălina Mihai (Romania)
16:40-17:00	Proton therapy: dosimetry with sensitive ultrasound contrast agents and nanodroplets Nico de Jong (The Netherlands)
19:30-23:30	Get together party Fratelli By The River 1, Corneliu Coposu Blvd

Room 4 - Atena

09:00-11:00	S27. US of the thorax Chairmen: Helmut Prosch, Milan Kocián
09:00-09:25	US of the pleura Helmut Prosch (Austria)
09:25-09:45	Ultrasound of lungs Kanu Bala (Bangladesh)
09:45-10:10	Transparietal ultrasound bronchology – what can we see and what does it mean? Milan Kocián (Czech Republic)
10:10-10:35	Can COVID-19 patient ultrasound assessment benefit from Artificial Intelligence application? Michael Blaivas (USA)
10:35-11:00	Chest sonography in pneumonia and pulmonary embolism Gebhard Mathis (Austria)

11:00-11:30	Coffee Break
11:30-13:00	S34. US techniques in PHT Chairmen: Bogdan Procopeț, Ivica Grgurevic
11:30-11:48	Non cirrhotic portal hipertension - ultrasound-based diagnostic methods Bogdan Procopeț (Romania)
11:48-12:06	Ultrasound surveillance post TIPS placement Horia Ștefănescu (Romania)
12:06-12:24	Elastography differential diagnosis of portal hypertension Matteo Rosselli (Italy)
12:24-12:42	Use of Doppler in portal hypertension Ivica Grgurevic (Croatia)
12:42-13:00	Baveno VII: What changes in elastography? Antonio Carlos Matteoni de Athayde (Brazil)
13:00-15:00	Lunch
15:00-17:00	S40. Thyroid US Chairmen: Cristina Chammas, Elene Gotsiridze
15:00-15:20	Pattern recognition approach to diffuse thyroid diseases Mustafa Seçil (Turkey)
15:20-15:40	US criteria for risk of thyroid nodules: TI-RADS and guidelines Cristina Chammas (Brazil)
15:40-16:00	The role of elastography in intermediate (Bethesda III + IV) nodules Dana Stoian (Romania)
16:00-16:20	Ultrasound evaluation of thyroid lesions: misdiagnosis or overtreatment? Elene Gotsiridze (Georgia)
16:20-16:40	Post-operative thyroid US evaluation Cristina Chammas (Brazil)

16:40-16:50 OP22. Establishment and comparison of piecewise linear regression models to measure thyroid volume by 2D and 3D ultrasound
Yue Gui Wang, Hao Lin Shen, Shu Ping Yang, Ming Yong Cai, Ke Yue Chen, Ting Ting Li (China)

16:50-17:00 OP23. The value of the nomogram model based on ACR TI-RADS: prediction of the central cervical lymph node metastasis in thyroid papillary carcinoma
Keyue Chen, Xiaomei Cheng, Haolin Shen, Shuping Yang (China)

19:30-23:30 Get together party

09:00-11:00 S29. US Therapies and More
Chairmen: Iwaki Akiyama, Carmel Moran

09:00-09:25 Ultrasonic tissue characterization by sound velocity change due to ultrasonic heating
Iwaki Akiyama (Japan)

09:25-09:45 Ultrasound guided regenerative medicine procedures
Yusef Sayeed (USA)

09:45-10:10 Characterisation and optimisation of ultrasonic contrast agents for preclinical imaging
Carmel Moran (UK)

10:10-10:30 Therapy ultrasound + radiotherapy – why use this combination in cancer therapy
Gail ter Haar (UK)

10:30-10:55 Liver stiffness and genetic modulation
Sebastian Müller (Germany)

11:00-11:30 Coffee Break

11:30-13:00 S36. Neonatal and Pediatric US
Chairmen: Polina Pavičević, Gÿorgy Harmat

11:30-11:50 Neonatal and infant screening
Gÿorgy Harmat (Hungary)

11:50-12:10 Pocus ultrasound in pediatric patients with suspected intracranial hypertension
Blerina Saraci Qirinxhi (Albania)

12:10-12:25 Infant hip sonography: diagnostic errors
Elene Gotsiridze (Georgia)

12:25-12:40	Ultrasound imaging in neonates with suspected occult spinal dysraphism (OSD) Polina Pavićević (Serbia)
12:40-12:50	OP19. Identifiable cardiometabolic risk factors can predict subclinical atherosclerosis progression in obese children when correlated to carotid intima-media thickness measurement Monica Simina Mihuta, Corina Paul, Ioana Mozos, Dana Stoian (Romania)
12:50-13:00	OP 20. Shear Wave Elastography - a useful tool in diagnosing chronic autoimmune thyroiditis in children Cristina Mihaela Cepeha, Andreea Borlea, Corina Paul, Dana Stoian (Romania)
13:00-15:00	Lunch
15:00-17:00	S42. Joint ESNCH /EFSUMB Session (European Society for Neurosonology and Cerebral Hemodynamics) Chairmen: Eva Bartels, Zsolt Garami
15:00-15:20	Transcranial insonation protocol: Intracranial stenosis/ occlusion Eva Bartels (Germany)
15:20-15:40	Transcranial brain sonography: Established indications in neurology Uwe Walter (Germany)
15:40-16:00	Transorbital ultrasound: A useful tool in neurology Fabienne Perren (Switzerland)
16:00-16:20	The role of transcranial ultrasound in risk stratification and treatment decisions of carotid stenosis Milija Mijajlovic (Serbia)
16:20-16:40	The role of ultrasound in neurorehabilitation Adina Stan (Romania)
16:40-17:00	Robotic TCD Zsolt Garami (USA)

Recommendations for speakers and moderators

RECOMMENDATIONS FOR SPEAKERS

In order to plan an effective presentation, please **follow the technical specifications**:

- Please bring your presentation on the following media: **USB stick or external hard drive** (It is also advised to have your presentation stored in an online cloud).
- Power Point versions that can be used is **2019**.
- Save with the extension **.ppt, .pptx**. Do not use the function pack & go. Make sure that all files with movies are embedded in the presentation.
- Please do not use flash animations
- Do not use passwords for files.
- We recommend the use of common fonts: **Times New Roman, Calibri, Verdana, Arial**.
- In order to prevent any difficulties **please have your personal laptop with you**.

Presentation

- **First slide after the titles' slide should contain the disclosure**, if any.
- **All speakers must check-in with the technician at the Praga Speakers Ready Room a minimum of 3 hours before the start of the session – earlier if possible to upload the presentations**. You are welcome to upload your slides the day before your presentation too The Praga Speakers Ready Room will be opened Tuesday 24 May 2022 between 17.00-20.00 and from Wednesday to Saturday during the congress hours.
- Presentation remains the property of the author and will not to be

used without his permission

- Please arrive in time in the conference room before the start of your presentation
- Tell the moderator any details of your work and familiarize yourself with remote control projector, the timer and the microphone
- Strictly follow the instructions of the moderator

RECOMMENDATIONS FOR MODERATORS

Dear colleagues,

The scientific committee thank you for your accept in moderating one or more sessions of the congress. You have a very important role in assuring the success of this event.

We hope that the following information will help you.

Before the session:

- Identify the Conference Hall where the session will be held and reach it with a few minutes before work.
- Meet with technical assistant in charge of this room. If you encounter any problem, please ask technical assistant to help you in this regard.

During the session:

- Remember your audience from switching their phones on silent mode.
- Start the session on time, even if participation is low.
- Do not accept violations of presentation time.

Announcements:

- It is not permitted the filming or photography during the session, other than the official ones.
- Let know the changes that have been supplied by the organizers (if any).

ORGANIZERS

- World Federation for Ultrasound in Medicine and Biology
- European Federation of Societies for Ultrasound in Medicine and Biology
- Romanian Society of Ultrasound in Medicine and Biology

OFFICIAL LANGUAGE

Presentations will be held in English.

CERTIFICATE OF ATTENDANCE

Each participant will receive a Certificate of attendance, which will be sent by e-mail or downloaded from the MedEvents online platform.

Participants will only be able to receive their certificate of attendance once they have participated in the sessions of the congress.

ACCREDITATION

The WFUMB Congress 2022, will be accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with **19 European CME credits** (ECMEC®s).

INFOSTAND

The Congress InfoStand will be located in the lobby of the Timisoara Convention Center building.

The working schedule will be:

- Tuesday, May 24th 2022
15:00 – 20:00
- Wednesday, May 25th 2022
08:00 – 18:00
- Thursday, May 26th 2022

- Friday, May 27th 2022
08:00 – 18:00
- Saturday, May 28th 2022
08:00 – 14:00

HANDBOOK PROGRAMME

Each participant will receive from the InfoStand the Program Handbook. Program Handbook includes congress and partner materials.

BADGES

Participants are requested to wear their badge at all times while inside the congress center.

CONGRESS ACCESS

For access in the presentation room you will be using the badge which you will receive after registering at the InfoStand. Participants will choose their seats on “first come, first serve” basis. Therefore, we recommend to plan for an early arrival at the premises.

MEDIA POLITICS

Photography and filming during the congress are prohibited without written permission from the event Media Coordinator, whom you can contact at the InfoStand.

CATERING

Participants will serve the coffee breaks/lunch in the designated spaces, as detailed in the Program Handbook.

ELECTRICITY

The electricity in Romania runs on 230 volts and the frequency is 50 Hz. Plugs have two round pins. A plug adaptor will be required if incompatible electronic devices are used.

INFORMATION FOR SPEAKERS

There will be accepted for presentation only the digital materials which respect the technical specifications agreed upon registration. The materials need to be dropped at Praga Speakers Room at least 3 hours before the time scheduled for your presentation. Not being able to respect the technical specifications or the time limit could have a negative impact on your presentation.

DRUGS AND FIRST AID

A wide range of non-prescription drugs are readily available at local pharmacies. For other medication you will need a prescription signed by a registered Romanian doctor. In case of emergency please call the 112 emergency number.

LIABILITY AND INSURANCE

The congress operator will not assume responsibility for injury and/or damage involving persons or property during the event. All participants are advised to prevent/avoid any injury/ loss.

MOBILE PHONE

Mobile phones must be switched off during all sessions.

SMOKING

Smoking is allowed only in designated areas.

10 Reasons to Visit Timisoara

With its rich history, vibrant cultural scene, lively terraces and cafés and robust student population, Timișoara, the 2021 European Capital of Culture is Romania's must-visit city right now. Here are our 10 reasons why you should add Timișoara to your destination list on your next visit to Romania.

Fascinating history

Timișoara has been inhabited since ancient times, by Dacians and later the Romans, who named it *Castrum Temesiense*. First mentioned in 1212 as a citadel, by the 14th century it became an important outpost in the fight between Christendom and the Muslim Ottoman Turks. It was here that Hungarian and French crusaders gathered before the Battle of Nicopolis (1396), one of the last large scale crusades. From the 18th century, it

developed around the fortified nucleus and later transitioned towards becoming an important economic and industrial centre. The city flourished between the interwar period and the Communist period, when its population tripled.

On 22 December 1989, following a popular uprising, Timișoara became the first Romanian city free of communism, starting the Romanian Revolution which toppled Ceaușescu's regime.

Electrifying past

In 1884 Timișoara was the first mainland European city and just second in the world – after New York – to have electric public street lighting. After the city's contract with the Viennese company that supplied it with the gas used for lighting ended, the city decided to take a shot on a new revolutionary public lighting system. On 12 November, 731 electric lamps were used to light the streets of Timișoara, paving the way for its bright future. The two lamps in front of the Huniade Castle, hosting the Banat Museum, are a reminder of just that.

The capital of the Banat region was also the second European city, and first in Romania, to introduce horse-drawn trams in 1869.

Lively cultural scene

The third most populous city in Romania, Timișoara has no less than four theatres, namely the Mihai Eminescu National Theatre, the German State Theatre, the Csiky Gergely Hungarian State Theatre, and the

Merlin Puppet Theatre.

The city also has several museums hosted by some of Timișoara's landmark buildings. The Art Museum, hosted by the Baroque Palace in the Unirii Square, the Banat Museum that occupies the Huniade Castle, and the open-air Museum of Banat Village are not to be missed. The Palace of the Serbian Episcopacy offers a surprisingly well curated collection of art and rare books. Plus, Timișoara also has an Opera, a Philharmonic, plenty of art galleries and hosts over 30 festivals every year.

University center

Ever since King Ferdinand I awarded Timișoara the status of University centre in 1920, the city has attracted the brightest minds in the country and beyond.

Timișoara now has four public universities and as many private ones. The student population of the city, totalling around 60,000 students, lends the city a fresh, youthful vibe.

2021 European Capital of Culture

In September 2016, Timișoara was elected 2021 European Capital of Culture, a title it shares with Novi Sad in Serbia and Eleusis, Greece. For one calendar year, the city will host a series of cultural events with

a European dimension, such as exhibitions, concerts, plays and many more.

True multiculturalism

Throughout its history, Timișoara has been a melting pot of cultures. An important Muslim community in the 17th century during Ottoman rule, and later, Hungarians, Serbs, Germans and Jewish all called the city their home.

Currently, the Romanian Opera House, the imposing building in Victoriei Square, hosts the Opera, as well as the Mihai Eminescu Romanian National Theatre, the German State Theatre and the Csiky Gergely Hungarian State Theatre. Moreover, services at the Catholic Dome are held even today in Romanian, Hungarian and German languages.

Stunning architecture

Timișoara's architecture is the first thing that stands out when it comes to the city's rich cultural heritage.

Standing tall at 80 meters, with its 11 towers, and seven bells, the Timișoara Metropolitan Cathedral is one of the most imposing buildings in the city. Its cupola is built in Moldavian style, while the side arches are in Byzantine style and the mosaic floors recreate motifs found in Banat style rugs. The City Hall and the Neuhaus Palace, designed by talented Hungarian-born architect Laszlo Szekely, add to the list of architectural landmarks of the city.

The Catholic Dome is the most important Baroque monument in the Banat region. Its sumptuous interior features nine altars decorated in rococo style, made by Viennese painters and sculptors. Not least, Art Nouveau buildings are scattered all around the area of the former citadel. The Dicasterial Palace, hosting the Palace of Justice, is a copy of the Palazzo Medici in Florence.

Amazing food

The city's old centre is full of cafés, restaurants and ice cream parlours catering to all tastes. The highlights of the Banat cuisine, such as pork specialties, as well as plenty of deserts will provide you with a hearty

meal after a day full of sightseeing.

Mild weather

Timișoara has mild weather all year round, thanks to its Marine West Coast Climate. This means that usually, at the height of summer, the city is spared the hot and dry days Bucharest and other cities in the Romanian Plain are known for. In winter, temperatures do not drop sharply, making the city an enjoyable destination to be explored by day and by night.

Wild nature

Timișoara has plenty of parks as well as its own Botanical Gardens. However, the natural areas around the city are where you can spot the most spectacular wildlife in the region. To combine outdoor activities and birdwatching, a canoe trip on the Bega river will provide you with the right setting. A longer trip, of around two and half hours will take you to Cheile Nerei, one of the most beautiful national parks in Romania.
